JUDGE STODDARD CROSS-EXAMINES

Attempts to Unravel the Mystery Surrounding the Late Philo S. Bennett's \$50,000 Bequest.

SAYS HE WAS WILLING TO PAY THE INHERITANCE TAX.

Also that He Offered to Give Mrs. Bennett the Interest on the Bequest-Mrs. Bryan Writes Letters.

NEW HAVEN, Conn., Oct. 22.-William J. Bryan again occupied the witness stand in the Probate Court when the hearing on the application for probating the will of the late Philo S. Bennett was resumed to-day. A great deal of the ground that was covered yesterday was gone over again during the cross-examination to which Mr. Bryan was subjected by Judge Henry Stoddard,

Judge Stoddard spent considerable time in asking Mr. Bryan why it was that, in the letter which was left for Mrs. Bennett by her husband directing her to give Mr. Bryan \$50,000 for himself and family, it was not stated that a certain part of the fund was to be given to Mrs. Bryan and part to the children. Mr. Bryan replied that he did not know, but that it was so understood between himself and Mr. Bennett, and that after Mr. Bennett's death he told Mrs. Ben-

Judge Stoddard also inquired why it was not stated in the letter to Mrs. Bennett that Mrs. Bryan knew the contents of this sealed letter, since that letter said the writer preferred to have no one know it but Mrs. Bennett and himself. Mr. Bryan replied that he had told Mrs. Bennett the details of the agreement when he came here after Mr. Bennett's death. He added that he presumed it had not occurred to either Mr. Bennett or himself to mention Mrs. Bryan

The witness was asked to explain why he had received \$300 from Mr. Bennett at the time the will was drawn up, and stated that while there was nothing said about it he supposed it to be for drawing up the docu-

Mr. Stoddard then questioned the witness regarding some offers he had made to Mrs. Bennett with regard to the \$50,000 bequest to himself and family. Mr. Bryan said he had told Mrs. Bennett that he was willing to pay the inheritance tax on the entire \$50,000 bequest out of his \$25,000 portion, and that he would give her \$2,500 in trust for three persons who were her relatives, the remainder to be invested by him in government bonds and the interest to be paid to Mrs. Bennett unless he should need it in case of broken health or in case of her death. When Judge Stoddard asked the witness if Mr. Bennett had ever made any investments for him Mr. Bryan replied that he afternoon. Replying to questions, he stated that Mr. Bennett appeared to be in good mental condition at the time when he last saw him, which was shortly before his death. On this occasion the witness went to New York with him. He was a man, said the witness, whose opinion could be not easily changed. At this point Judge Stoddard interrupted with the question, "Did he worship Mr.

YOKOHAMA, Oct. 22.-It is currently reported that the hitch in the negotiations is due to the Japanese demand for equal railway rights in Manchuria, but it is believed that a more serious difficulty exists. Dispatches are expected here from Admiral Alexieff, the Russian viceroy. The feeling

Theta Nu Epsilon Has Aroused Much Antagonism-End of Indiscriminate "Scrapping" at State University.

Special to the Indianapolis Journal. GREENCASTLE, Ind., Oct. 22 .- University circles are deeply interested in the outcome of a movement which was started this week and which has for its object the disruption of the Greek-letter interfraternity organization, Theta Nu Epsilon. A petition has been started among the students and is being liberally signed, which asks the faculty to take decisive action against the organization mentioned on the ground that it is injurious to college life. T. N. E. exists in institutions of an educational character all over the country, and it is claimed that it has for its primary object the selec-

tion of the best men in all fraternities which are not pledged against it in order that the fraternity lines may be somewhat broken down, but it is claimed by its pick the representative men and that its ole object is to control class elections and all college matters where votes are used in reaching settlements. Some of the members of the faculty are strongly opposed to the organization, but there are others who are not unfriendly and the outcome of the movement cannot be foretold.
